Prophecy

In the spring of 1969, I, Sherlee (Taylor) ??? decided that while my husband was in South America touring his plantations, I should take a trip to calm my nerves (such as they were). Although I had access to my own chartered plane, I preferred to mingle with the more COMMON people so I phoned the airport for a reservation.

Hark, didn't that operator have a familar tone of voice? I thought that maybe it could be---naw, surely it wasn't---but then it could very likely be. So I spent nearly an hour trying to get that one operator back (it seems I got everyone but her). But it was worth it, since I was right. Who else but Jean Huber would have worked herself up to Head Operator (but why wouldn't she?) (Her "number please" was the most beautiful two words I ever heard.) We had a nice little chat and would you believe it--she's been married to Dale Van Slyke for close to six years and they have three little monstors (not children) running around the house. It seems Dale is in the restaurant business so I decided to grab a bite at one of his chow-houses before leaving town. I grabbed a street-car (I didn't really grab it, it stopped for me) and nearly fell over to see that Wayne Craft was the driver. Ten years, hadn't changed his driving one bit 'cause he really made the sparks fly from the trolley line overhead.

Well, we finally made it to the restaurant, and I was so nervous, when I finally got inside and sat down that the chef came out to see what in the world was shaking the building. By george, if that good-looking chef, with the spotless white cap on, was none other than Stephen Champlin. It seems he had been the Head Chef in the White House until--he mistakenly used POISON instead of salt. (Oh well,--that's the way the ball bounces.)

After finishing a lovely dinner, (Ugh!) I had only a few minutes before plane time so I ran into a book store to buy a book. (Naturally!) I was browsing around the comic books when the librarian came over to see if she could help me. Why, it was none other than Leona Cole, who,

after losing Dale to Jean, had resolved to be an old-maid Librarian. However, I found out later, that she had been secretly dating Larry Harper when he was home from Africa, where he and the great Stanley Livingston Goode often went on Safari's. Stanley (or Bud as we all knew him) was a world-known, big-game hunter---this was his profession. His hobby was shrinking heads, (anybody's!!!!)

I arrived at the airport just as my plane was called, so I motioned for a red-cap (don't know why they call them red-caps since this one was wearing a blue one!) As he struggled to get my three trunks and five suitcases on his little cart, I thought I noticed a certain mischevious gleam in his eyes--why sure, it was Pat Wiggins. After I helped him, by putting the trunks on his cart for him, he told me that he and J.L. (Judith LaFollette) were married and living in the suburbs. Judith has resolved to be a plain, old housewife instead of a dizzy blonde. She still writes poetry and does illustrations just for relaxation.

I reached the plane just as they closed the door but the stewardess was kind and let me in. There was something about that cute little walk and great big smile that reminded me of someone I knew. Why, of course, Barbara VanBenthusen! She had always said she would like to be an airline stewardess so she could fall in love with the pilot, and it seems that's exactly what happened. I was thrilled when she asked me to meet her husband (the pilot), and even more thrilled when I saw him---Bob Swain. And he was the one who said he'd take the wide ocean anytime in preference to the sky. (Oh well, that just shows you what a woman's touch will do to a guy!)

After seating myself, I noticed two women across the aisle from me chattering worse than a couple of magpies (never heard two magpies before, but I'm sure their chatter could never have kept up with these two!) I knew right then that it could only be Faye Short and Vonda Kershner. I immediately struck up a conversation with them in which we recalled old memories about M.H.S. I guess they've both been married several times to rich playboys and were now each looking for another. They told me that Joyce Case and Elaine Woodall were working as Rockettes at the Radio City Music Hall in New York City. They got their start by taking lessons from the Harry McCoy Dance Studio. I guess Harry has entirely taken over Arthur Murray's business. (Guess he's just as bald-headed as Arthur, too.)

The plane at last reached New York where I was to take the Queen Elisabeth (a ship) to Europe. I went into the airport's coffee shop for some coffee, and who else would be waiting tables but Evelyn Cummings. She had kept in touch with several of our classmates so we exchanged notes. Virginia (Werntz) Jackson and Raymond (her husband) have four romping, rowdy boys; but they want five (boys) for that would give them a basketball team of their own. I can see it now--"The Globe Trotting Jacksons". Evelyn Jackson has married Carl and they have three tall little girls (wonder where they got their height??) Maybe Evelyn and Carl are working on a Girls' basketball team!!!! Georgia Groves and Jerre Ferrel are married (to each other) and live very happily in a small cottage in Cape Cod. They have both built quite a reputation for themselves---skin-divers!!! They usually work together, but when Georgia gets mad (or is in a bad humor) she simply disconnects Jerre's oxygen hose and watches him swim like a shark to the surface, for air! Brenda Ross is a top fashion expert who designs clothing. I understand she makes her own clothes (although I don't know how she has time, since she was so slow when it came to sewing in Home Ec.) Maybe, after she was pushed and forced to sew in school, she found she really liked it---maybe!

I had enjoyed this chat with Evelyn Faye and was leaving when whom should walk in but Judy Fritts. She was on her way to Germany where her husband was stationed. (She married the boy she had dated all through school---what was his name??) She refreshed my memory that it was Alan B. Alan is Elvis Presley's Army Press Manager. Judy has a teaching contract to teach at a school there in Mecklenburg-Strelitz

(what a name!!) She has been studying the German language in preparation for this (although, she always did talk PIG latin in school!) Judy told me that Donna Crawford and Ronnie S. are married and have two little boys. Ronnie is a dentist and Donna was his nurse till he pulled a tooth for her and she discovered what a really bad dentist he was! (I understand she takes her business elsewhere now.)

Judy also told me that Bobby McWilliams is a bouncer at Shantilly Inn near Pleasanton. (That used to be Shanty Inn, but I guess its grown into quite a business now.)

After saying good-bye to Judy and wishing her Bon Voyage, I went into the lobby where I had heard an awful commotion. Flash bulbs were flashing and reporters were asking questions right and left. I moved in for a closer look and there seated on top of her suitcases was the lovely movie star, Zsa Zsa Gabor. Standing next to her, acting like a hunter who had bagged his game, was her latest husband--oh no--J.D.--Addleman. (But why not, he always did have that suave, smooth--talking wolf tactics!) As soon as he spied me he rushed right over to greet me (NATURALLY, making Zsa Zsa VERY Jealous!)

He only had time to tell me that Janie Ewbank was running a gambling casino in Las Vegas and making a fortune (only trouble is--she spends it as fast as she makes it. She doesn't gamble in her own casino but in the one across the street--it pays higher!)

After J.D. left, I ran and bought a ticket for the first plane going to Amsterdam or Amoret. For you see, after seeing or hearing about all my old classmates--my nerves are in worse shape than when I started. My class mates are all as scatter-brained as they were at MHS. I'm going home for a much needed rest.
